EDUCATION

Addis Ababa University | Addis Ababa, Ethiopia

May 2022 - Jan 2026

B.S. in Software Engineering | GPA:3.75

- Relevant Courses: Human-Computer Interaction, Web Design and Programming, Computer Graphics, Object-Oriented Programming, Mobile Application Development, Fundamentals of Software Engineering, Software Project Management

TECHNICAL SKILLS

Programming Languages : JavaScript (ES6+), Python, Java, TypeScript

Web & Mobile Development: HTML/CSS3, React.js, Flutter, Tailwind CSS, Bootstrap, Next.js, Angular, Vue.js

UX/UI Design: User Research, Usability Testing, Wireframing & Prototyping, User Flows & User Stories, Design Systems, Interaction Design, Figma

Databases: MongoDB, MySQL, PostgreSQL, SQLite

Version Control & CI/CD: Git/GitHub, GitHub Actions

PROJECTS

ModIntel — AI-Enhanced Web Application Firewall

Sep 2025 – July 2026

- Conducted user research and translated security analysts' workflows into information architecture, user flows, and high-fidelity Figma prototypes for a data-intensive security monitoring platform
- Designed the end-to-end UI/UX for a 17-page dashboard, covering real-time alerts, analyst review, WAF rule management, service monitoring, model training, datasets, reports, and audit logs
- Built the complete frontend in HTML, CSS, and JavaScript, implementing responsive interfaces, data visualizations, filtering and pagination, role-based UI, and Server-Sent Events for real-time updates
- Delivered a production-ready interface for a system achieving a 0.989 F1 score and a 75x reduction in false positives versus the baseline WAF

PhD Progress Monitoring System (PPMoS)

Jan 2025 – May 2025

- Partnered directly with PG Coordinator and Chair stakeholders to conduct user research, develop personas, and map user journeys across four key user roles
- Designed user-centric mobile and web interfaces in Figma, progressing from wireframes to high-fidelity prototypes with a focus on usability and role-specific workflows
- Architected and developed the frontend in React, integrating backend services to support milestone tracking, progress reports, submissions, and advisor feedback
- Digitized the PhD progress process into a centralized platform, reducing reliance on manual tracking, in-person submissions, and advisor scheduling

PROFESSIONAL EXPERIENCE

Frontend Developer | Upwork Client — Logincident

Feb 2025 – Aug 2025

- Designed and engineered a dynamic PDF generation system for a multi-tenant incident-reporting platform used by companies including Aon, AXA XL, Finning UK, and Barratt Developments
- Owned the "view incidents" feature end to end, automatically customizing report branding (logo, color scheme) per client company and layout structure per incident type

UI/UX Design Instructor & Mentor | Thrive Community, Addis Ababa University

Sep 2025 – Jun 2026

- Taught UI/UX design and Figma-based prototyping to 50 students as the club's ongoing UI/UX instructor, delivering hands-on training within a 24-week technical curriculum for aspiring female developers
- Mentored one junior student one-on-one through weekly sessions across 24 weeks, guiding technical growth, goal-setting, and professional development

NON-TECHNICAL SKILLS

Problem Solving, Communication, Time Management, Adaptability, Leadership and Ownership
